

NRI Secure Receives “Japan Managed Security Service Provider of the Year Award” for Fourth Straight Year

Tokyo, November 19, 2020 - NRI SecureTechnologies, Ltd. (“NRI Secure”), a leading global provider of Managed Security Services, today announced that Frost & Sullivan recognized NRI Secure with the “2020 Japan Managed Security Service Provider of the Year Award” at the 2020 Frost & Sullivan Best Practices Awards. This marks the fourth consecutive year NRI Secure has been honored with this prestigious global security market award.

Frost & Sullivan’s Best Practices Awards recognize companies throughout a range of regional and global markets for superior leadership, technological innovation, customer service, and strategic product development. As a result, the award is given to honor companies that marked the highest overall score among the contenders.

“Operating managed security services (MSS) in Japan for more than 20 years, NRI SecureTechnologies, Ltd. is one of the market pioneers. The company provides a wide range of MSS, expanding its security services portfolio in 2019. NRI Secure extends its offerings beyond traditional security monitoring services to cloud applications and services, endpoint security, and advanced malware protection. These new services leverage IoT, 5G, cloud and edge computing, machine learning (ML), artificial intelligence (AI), and cybersecurity solutions to help customers. As a result, NRI Secure continued to be the largest MSSP

(managed security services provider) in Japan in 2019.

NRI Secure is a deserving recipient of the 2020 Frost & Sullivan Japan Managed Security Service Provider of the Year award, receiving this recognition for the fourth consecutive year” said Mr. Tetsuya Niihara, Associate Director, Cybersecurity, APAC ICT Practice, Frost & Sullivan, who reviewed the award.
